

## Bonspiel Finals Played Last Friday Evening.

The 15th annual bonspiel of the C.N.P.C.A., drew to a close last Friday evening with the finals played on heavy ice after four days of splendid curling.

All the cups went to out of town rinks and were fairly well distributed over the territory comprising the association.

W. Cameron, of Cranbrook, won over Geo. Fisher, of Miel, in the finals of the Interprovincial event after a hard struggle.

Ed Stewart, Fernie, defeated M. Kastner, Fernie, by 7-2 in the finals of the Trites-Wood Cup, and also defeated J. Wallace, Fernie, 15-8 in the final game for the international trophy. The Stewart rink also secured the Grand Aggregate with fourteen victories.

L. Morgan, of Blairmore, won over H. Rosenberry, Pincher Creek in the finals of the McGrath Cup by 11-3.

The Kerr rink, of Bellevue, defeated Boulton, of Coleman, in the finals of the Consolation after a hard fight.

J. Kelly, of Pincher Creek, had an easy win over Wallace, of Fernie, in the finals of the Lethbridge Brewery Cup, when he took the Fernie rink into camp by 10-1. Kelly also defeated Hanson, of Bellevue, in the finals of the Grand Challenge after a close game by 9-8 winning two cups and coming second in the Grand Aggregate with thirteen wins.

All three rinks from Pincher Creek distinguished themselves by getting into the prize in one or more events.

Bellevue, the baby club of the association, made a splendid showing, winning a first and second in the major events.

The local rinks, weakened by numbers, got into but two events, Moores getting into the finals of the Grand Challenge and Boulton the semi-finals of the Consolation.

Viewed from every angle the 15th annual bonspiel, which closed last Friday night, was undoubtedly one of the best ever held within the boundaries of the C.N.P.C.A. There was ample ice—good and keen for the first three days. Draws were ably handled by Secretary R. Smith, while the service in the lunch room

## Civic Nominations— Election on Monday

Monday morning of this week was nomination day in Coleman. Mayor, Councillors and School Trustees, and unless there are some withdrawals between now and election day, Monday next, the borough of the town will be called upon to decide by their ballots who they desire to represent them from the following list of candidates:

### For Mayor

W. J. Burns  
H. Gate  
For Councillors  
J. Rouston  
James Moore  
Joseph Stephenson  
W. Vincent  
Geo. Pattinson  
James Allan  
S. Moores

### For School Trustees

Mrs. A. W. H. McLeod  
Thomas Johnston  
John S. Rogers  
Alex. MacKinnon

The mayoralty contest rests between the present incumbent, Mayor Burns and Mr. H. Gate, while of eight councillors nominated, the four receiving the highest vote will be elected. Two of the four candidates for school trustees receiving the highest vote will take their place on the school board.

The financial statement and auditor's report of many towns and school districts throughout Alberta are now appearing in the weekly press in the province. Blairmore is publishing their statement this week. When may we expect to see the Coleman statement in print?

Sir Arthur Conan Doyle's stupendous story, "The Lost World," is coming to Coleman on Saturday of this week, and will be shown in both the Grand and Palace theatres. See advt. on back page for full particulars.

could not have been improved upon. Good sportsmanship was in evidence during every game, and the final results show that the cups are well distributed among the various towns comprising the organization, which will no doubt assist materially in stimulating interest in future bonspiels.

Complete play downs in all seven events appear in this issue of The Journal.

## Banquet to Visiting Curlers a 'Knock-Out'

One hundred and twenty five curlers were guests of the Coleman Curling Club at the banquet in the Grand Union Hotel on Wednesday evening of last week. This annual feature of Crow Bonspiels is always one of the most pleasant events of the big 'spiel, and according to the many complimentary expressions made by the guests, the 15th annual banquet goes down in the Association's annals as one of the most enjoyable ever held.

Shortly after eight o'clock, the pipers preceded the guests to the banquet hall, where "Grace before meat" was pronounced by Rev. D. K. Allan, and the curlers did ample justice to the following splendid menu provided by Mine Host, Wm. Bell, proprietor of the Grand Union:

Stones, Brooms, Rocks  
Scotch Broth, Curries Delight  
Hot Roast Turkey, Inturn  
Baked Brown Potatoes, Dried Weight  
Green Peas, Stipped in the Hack  
Hot Mince Pie  
Plum Pudding, with Alberta  
Liquor Control Board Sauce  
Tea Coffee Milk  
Kellock Lemonade  
"The Morning After"

Immediately after the inner man had been attended to, Toastmaster, H. C. McBurney proposed the toast to "The King" which was accorded the usual hearty honors.

Mr. A. B. McMurdo, of Pincher Creek, sang "The Vagabond" which so captivated the audience that an encore was demanded and he responded with "The Standard on the Bree of Mar."

The Toastmaster coupled the names of Mr. Geo. Kellock, Coleman, and Mr. W. Cameron, Cranbrook, with the toast to the C.N.P.C.A. Curling Association. Mr. Kellock, in proposing the toast said that while Winnipeg has a larger bonspiel than ours in The Crow he did not think it was any better, as it lacked the personal touch which was the outstanding feature of Crow 'spies. The speaker was of the opinion that this district 'spiel could be made to grow bigger and better every year as we had the finest territory in the world from which to draw from.

Mr. Cameron in responding com-

plimented Coleman on the success of this year's 'spiel, and went into the history of the early days of the association, mentioning many names of the "old guard" forming the nucleus of this historic organization. He issued a hearty invitation to all present to come to Cranbrook in 1927 and promised them that Cranbrook would at last try and equal Coleman's effort of this year.

Mr. D. E. Maclean, of Coleman in a recitation entitled "How The Habitants View The 'Spiel", struck a responsive cord in every curler's heart, and was forced to give an encore.

Mr. Geo. H. Altham, Hillcrest, gave a pianoforte solo entitled "The Blue Bells of Scotland" and "Annie Laurie" as an encore.

In the toast to "The Old Times" the Toastmaster called upon Mr. O. E. S. Whitelaw, Pincher Creek, in proposing the toast. Mr. White side in a humorous strain gave some well merited advice to the younger skips, cautioning them against making too much vocal noise while curling, as this was liable to disturb the old seasoned curlers and put them off their game. He mentioned an instance illustrating the good sportsmanship exemplified in the curling game that had come to his notice that day when one of the youthful skips named "Whispering Kelly" had been urging his rink to sweep like H., and the explanation had been heard by a man of the cloth. The offending skip immediately attempted to apologize, but before he had finished the parson said it was quite all right as he was preaching to both H. and the skip.

Mr. R. O. Allison in replying said the old time curlers were always glad to see the younger skips win games, and the older skips were always a source of inspiration to the younger men, congratulating them on making difficult shots and inspiring them to increase their knowledge of the grand old game. He spoke feelingly of several of the old timers who had thrown their last rocks, mentioning Mr. Geo. Hogarth, Cranbrook, Mr. W. L. Oumette, Coleman, and others.

Mr. T. Heck, Fernie, who followed with a very appropriate recitation entitled "The Old Man's Gettin' On", proved to be an artist of no mean merit. His brother curlers would not be satisfied until he had favored them with an encore.

Mr. A. B. McMurdo again rendered two vocal selections, "M-C-Clusky" and "The British Stoker" in his usual matchless style.

The toast to "The Visitors" was proposed by Mr. R. F. Barnes, Coleman, and responded to by Mr. H. Rosenberry, Pincher Creek. Mr. Barnes said the local club considered it a high honor and a great pleasure to have the district bonspiel in Coleman, and trusted that all the visitors had enjoyed themselves both on and off the ice. Mr. Rosenberry in replying stated that he had yet to meet the curler who had not enjoyed his stay here, and that if Coleman at some future date undertook to again hold the 'spiel, he felt certain every man present and many more, would be on hand to enjoy the hospitality of the local club.

Mr. Kerr, of Passburg, gave two very pleasing violin selections, followed by the pipes. Mr. Jack Kelly of Pincher and Mr. Pete Zerratti of Miel, and Mr. J. Coutts, Calgary, enlightened things with some fancy step dancing. Mr. Coutts also contributed two popular vocal hits entitled, "My Ain We Home" and "Only a Private Soldier." Mr. A. B. McMurdo made another hit with his vocal selections, "March of the

Cameron Men," and "The Vagabond" (requested). Mr. Tully, Fernie, also quickened the Scottish pulse with his rendition of "Jessie, The Flower of Dunblane."

Mr. Sherwood Herchmer, the ever popular secretary of the association was called upon to say a few words by Toastmaster H. C. McBurney. Mr. Herchmer said he had at various times attended most of the bonspiels held in Western Canada, and he was of the opinion that the Crow 'spiel was one of the most sociable held in the West. He told a number of anecdotes with a strong Scottish flavor that some sons of Scotia had a hard time swallowing, but got them down with the aid of some liquid refreshments. He paid a glowing tribute to those responsible for the carrying out of the 1926 'spiel, and hoped that each succeeding year would see greater interest taken in this premier winter event of the Crow's Nest Pass.

"God Save The King" and "Auld Lang Syne" brought this most enjoyable social event to a close at the midnight hour.

## EGGS FOR SALE!

SETTING EGGS from F. Lote's last year's registered contest, S. C. White Leghorn hens and R. I. Reds. Apply F. J. Lote, Coleman, or write direct to F. Lote, Hillcrest.

Bellevue Bulldogs defeated the Coleman Tigers in a Crow League fixture here on Tuesday evening by a margin of seven goals to three.

The local fire brigade had an early morning run to West Coleman Tuesday at 3 a.m., when the residence of Mr. and Mrs. P. Rogolino was badly gutted by a fire which is thought to have originated from an over heated stove. Mrs. Rogolino and children escaped safely. Mr. Rogolino being at work at the mine, and was taken in by Mr. and Mrs. Calabro, who reside opposite the scene of the fire. The property loss is around \$3,000 partly covered by insurance.

Mr. Harry Gate, Jr., who met with a severe accident to his foot in the mine a couple of weeks ago, had to have the injured member amputated on Saturday last at the local hospital.

Miss Gladys Lees returned to Lethbridge on Monday of this week where she will complete her course in book-keeping and stenography.

Coleman Lodge No. 36, I.O.O.F. desires the attendance of all officers and members at their next regular meeting, Monday, February 8th, at 7.30. Important business.

Mrs. H. Wilton Clark and daughter, Dorothy Jane, have returned from Didsbury and with Mr. Clark will take up their residence at the corner of 7th street and Park Terrace.

School Inspector C. C. Bremner, M.A., of Macleod, who recently inspected the local schools, in his report to the School Board states that the standing of the pupils in the various grades is good and that general conditions throughout the schools are very favorable.

Owing to lack of space in this issue two articles, G.W.V.A. smoker and the January meeting of the W. I., are unavoidably held over until next week.

## Say It With Flowers

# Very Gratifying Success Is Achieved By British Settlers Coming Under Assisted Scheme

It has been said that one of the factors which might become an active stimulant to British immigration to Canada in 1926 and the years following would be the satisfaction and success achieved by the British settlers who moved to the Dominion in the course of the present year to be settled on farms under the assisted scheme of the Canadian Government. Through the terms of the Overseas Settlement Act, the Imperial and Canadian Governments entered into an agreement whereby three thousand families in the British Isles would be assisted on Canadian farms. The colonies were to be provided with a small farm which they would make their domicile, and this stocked with cattle, poultry and machinery, the price of these to be repayable by the settler in twenty-five equal yearly payments, with interest at five per cent, no payment being asked until at least a year after settlement.

The scheme came into operation in 1925. Only families were accepted which, after careful investigation, were approved as suitable by the emigration agents of the Canadian Government. Farm homes were prepared for their occupancy before their arrival. No family, however, was permitted to operate a farm until they arrived. Canadian experience, it was recognized, must be gained, and lands were leased to neighboring farmers for the current year, reserving for the new family, housing, stables, garden and outbuildings. The family and the children of an acre to work were directed to employment in the immediate vicinity. The first families accepted under the scheme sailed in Canada in March, 1925, and during the first year approximately 500 families, numbering nearly 2,500 people, have come to Canada under its provisions.

Some extensive publicity has been given in the Dominion to the success of the wife of one of these British settlers who, after only four months' residence on the farm in Canada, secured all the first prizes for dairy products at the fair in a dairy colony. In surveying the general experience of this first contingent of British settlers, however, it is found to be not exceptional, but rather indicative of what has been accomplished in the brief period.

In Canada some twenty families expressed dissatisfaction, disaffection, or inability to proceed along the original lines under the scheme, and turned their attention to activities other than farming. Of the total, 425 families, or 85 per cent of all those who sailed in 1925, have definitely expressed themselves as happy and satisfied, and glad they moved.

A review of these simply narrated experiences, gathered together by the department of immigration and colonization, makes very gratifying reading to those who have found it a matter of regret that it has not been found possible in the post-war years to effect any great agricultural development in Canada along British lines. Such families as dropped out of the scheme, it was found, had not formed a proper conception of actual farm life in Canada. In several cases they did not realize that hard work was essential to success, or that a farm which could be purchased at a moderate price, with no payment down, with low interest, and at long terms, must necessarily be a modest establishment and not the highly developed place so frequently conceived as a typical Canadian farm home. The review, taken altogether, goes to show that even one of the British families which was out in the right spirit, actuated by a vision which permitted them to see the future result of present labors, has achieved an initial measure of success which is very gratifying to Canada and must be highly pleasing to themselves.

**The Poor Forgotten**  
Cardinal O'Connell, of Boston, thinks the late Frank Murphy might have left some of his millions to the poor rather than the whole estate to support an art gallery. There will probably be many who will agree with his conclusion. No artist could ever perfectly transfer to canvas the real magnificence of a single summer sunset, which is the heritage of rich and poor alike, but there are thousands who can't enjoy a picture when their stomachs are empty and everything seems to be going dead wrong—Ottawa Journal.

A genius is a fool who succeeds; a fool is a genius who fails.

A woman can make a pile out of anything she wants to.

W. N. C. 1611

## Brain As Human Food

Liberal Supply Necessary Is Opinion of U. S. Doctor

Some of our food specialists think the average diet would supply all the food elements needed for health and bodily vigor if it contained a little more milk. The special reason for increasing the allowance of milk is to supply more protein than the average man needs. Dr. D. B. Jones, of the United States department of agriculture, does not altogether agree. He advises a well chosen, varied diet, including more milk, more green vegetables, fruits and more cereals than is included in the diet of the average person.

By whole cereals he means cereals made from the whole berries of grains and including, therefore, a liberal supply of bran. If the bread one likes is poorer in bran than it ought to be, some of this food can be added to the cereal, either before cooking or before serving. Most of the report by Dr. Jones is based on his studies of the food habits of the average person.

He writes that rats can be kept alive and in fine condition for a year on a diet of bran alone. Bran is generally considered as a roughage and without food value. As a matter of fact, rats digest bran well. Perhaps even other mammals digest it even better. It seems probable that man digests and assimilates bran, getting from it most of the food value absorbed in the digestive tract. Furthermore, the proteins of bran are of the best quality.

## Fine Flavored Cream

Absolute Cleanliness, Pure Water and Food Is Necessary

In Bulletin No. 57 of the Dominion department of agriculture, Mr. W. F. Jones, chief of the division of dairy management, gives the conditions that are necessary to produce fine flavored cream. First in importance is absolute cleanliness in which is included clean and pure water and food. Any dirtiness or impurity in either affects the cream. Cows should have the access to salt at all times. Cleanliness of the animals is not only imperative but also that of the milkers and of the utensils used. Galvanized pails, says Mr. Jones, are difficult to keep clean and best to have brass or tin. Use a new piece of cheese cloth for straining after each milking or wash the used cloth thoroughly, and dry it quickly. The new type, our authority says, consisting of a combination of wire mesh and absorbent cotton strainers, lessens the danger of poor flavors.

## Fish-Farming in Europe

Germany Goes In For This Industry On Large Scale

Great Britain is almost the only country where fish-farming is practically unknown. It is true that there are excellent trout and salmon hatcheries, but these are run only for the sake of restocking waters for sport.

Germany goes in for re-farming on a large scale, and before the war the Germans bought huge quantities of eels, or young eels, in England. Eels, on the Severn, was their source of supply, and in four years they took seventeen million eels from this place to their own fish farms.

The most up-to-date eel farm in the world is at Nellen, on the Danish island of Zealand, where an artificial lake of nearly five hundred acres has been formed and stocked with eels. Pumps have been set up to pump the water from the bay close by into the lake, and a special passage is arranged with fresh water flowing out of it to attract the eels or young eels from the sea.

**Disease of Modern Life**  
Naughtiness among children is the disease of civilized life. Dr. A. H. Hadd told two military inspectors at a meeting in London. The speaker said that he had spent thirty years in the South Sea Islands without having ever heard any quarrelling among the native children.

You borrow from yourself when you cut down expenses.

Could make a good shot, but he makes some awful hits.

## Aid To Agricultural Industry

Forecast of Proposed Legislation in Speech From the Throne in Manitoba House

Legislation providing for special aid to the agricultural industry, a general pledge to encourage development of Manitoba's industrial and natural resources, creation of local government boards and curtailment of the horse racing season in the province, were outlined in the speech from the throne read by Lieutenant-Governor Alken at the ceremonial opening of the fifth session of the seventeenth Legislature of Manitoba.

The agricultural aid schemes involve a survey of vacant lands of the province and encouraging of settlement upon such of these as can be economically developed. It is also proposed to utilize the provincial funds of the Canadian wheat board surplus to work designed to promote more efficient marketing of farm products.

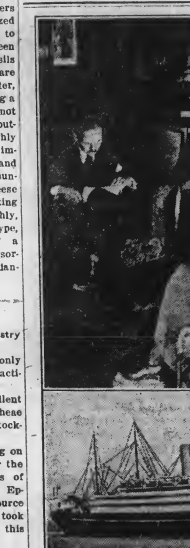

The three speech further indicated steps would be taken to obtain railway facilities for the mineral belt in northern Manitoba while the introduction of a bill to make provisions of the Dominion Industrial Disputes Investigation Act of 1907 applicable to industrial disputes within the province was forecast. Reference was made to proposed development freight rates and satisfaction was expressed for the general improvement in the business outlook in Manitoba.

## Wolfe's Prophecy

General Who Won Canada For the British Had Faith in Its Future

In view of the efforts being made to attract emigrants essential to the working out of Canada's industrial and political destiny, the following prophecy contained in a letter written by General Wolfe to his mother dated Louisbourg, August 11, 1758, might not be without interest. "This country (Canada) will some time hence be a great empire, the seat of power and learning. Nature has refused them nothing, and there will grow a people out of our little spot, England, that will fill this vast space—Mr. Wolfe-lyard in the London Times.

John was very proud of the kittens and brought them to show to the visitor. His mother called out: "Are you don't hurt them, John?" "No, mother," came the answer. "I'm carrying them very carefully by the stems."

CARRYING YOUR HOTEL WITH YOU

Had anyone conceived the idea one hundred years ago of taking a pleasure trip in a magic mansion where you carried along not merely your trunk, but also your home, it would have been considered by the world as the wild wanderings of an overwrought brain. Now we are living in an age of luxury. One day the impetuous wanderer is asked with the wanderer and he walks into a magic mansion, hangs up his hat on the hall stand, puts his stick in the rack, stows his things in the wardrobe, handles his trunk into the basement, sits back in his easy chair with a newspaper in his hand, a lighted pipe in his mouth and says easily, "Well, I guess we'll go to Japan."

For a while the traveller wanders around the house, plays golf and tennis in the sunshine, dines, talks, plays cards, listens to the radio, dances. Then, one bright morning he says, "Why, hello, here's Yokohama." From there he decides to go to New York, and so repeats the pleasant performance. Modern travel is fantastic and daring, realizing the utmost in hotel comfort, of London or Paris. The hotel trip described is made on the Canadian Pacific liner Empress of France which leaves Southampton on January 26 for New York. From the American metropolis the Empress of France has things in the wardrobe, handles his trunk into the basement, sits back in his easy chair with a newspaper in his hand, a lighted pipe in his mouth and says easily, "Well, I guess we'll go to Japan."

## Shrinkage of Cattle Exports

Loss of Weight in Rail and Ocean Shipping

The superintendent (Mr. W. H. Fairbairn) of the Leithbridge, Alta., Dominion experimental station has been keeping tab on the shrinkage of cattle in rail and ocean shipping. His report in his report for 1924 that fat cattle lose more than thinner cattle; that the short-horn lost 28 lbs. per steer from Leithbridge to Moose Jaw, or 23 per cent; that from Leithbridge to Winnipeg the loss per steer was 43 lbs., or 33 per cent; and from Leithbridge to Montreal, 58 lbs., or 43 per cent, while the feeders on the loss from Leithbridge to Moose Jaw was 28 lbs. per head, or 22 per cent; from Leithbridge to Winnipeg, 26 lbs., or 21 per cent, and from Leithbridge to Montreal, 63 lbs. per head, or 5.4 per cent. During ocean travel the loss was very slight. The short-horn lost 36 lbs. per head, or 2.8 per cent on the ocean to the feeders, 30 lbs. per head, or 2.4 per cent. The former sold in England at a total loss in weight of 58 lbs. per head, or 7.5 per cent, and the latter at a loss of 73 lbs. per head, or 6.3 per cent.

Mr. Fairbairn points out that when it is considered that it is customary to sell cattle in Canada for so much per hundred based on farm weights, less 3 per cent shrink, the shrink for which the animal sold for in England was only 45 per cent, greater than this on the short-horn and 28 per cent on the feeders.

## Money From Bees

Beeskeeping Proves to be a Profitable Line in Manitoba

Manitoba bee experts are becoming jubilant over the quality of the honey being produced in the province. Two men averaging two days a week each were laboring last summer, netted nearly \$1,000 from their hives. Miss Mary Short, of Morden, reports that from her hives she secured 960 pounds of surplus honey, and sold it at 17 cents per pound. The Misses Elliott, of Outlook, Manitoba, students at the 1925 short course in beeskeeping at Manitoba Agricultural College, got 2,050 pounds from six hives, which they sold at 15 cents a pound. These are all farm girls, and they have demonstrated that beeskeeping is a profitable sideline for one having a little spare time.

Movie Peat (reading title): Ah, me, what shall I do now?

A Voice: Shut up!

CARRYING YOUR HOTEL WITH YOU

Had anyone conceived the idea one hundred years ago of taking a pleasure trip in a magic mansion where you carried along not merely your trunk, but also your home, it would have been considered by the world as the wild wanderings of an overwrought brain. Now we are living in an age of luxury. One day the impetuous wanderer is asked with the wanderer and he walks into a magic mansion, hangs up his hat on the hall stand, puts his stick in the rack, stows his things in the wardrobe, handles his trunk into the basement, sits back in his easy chair with a newspaper in his hand, a lighted pipe in his mouth and says easily, "Well, I guess we'll go to Japan."

For a while the traveller wanders around the house, plays golf and tennis in the sunshine, dines, talks, plays cards, listens to the radio, dances. Then, one bright morning he says, "Why, hello, here's Yokohama." From there he decides to go to New York, and so repeats the pleasant performance. Modern travel is fantastic and daring, realizing the utmost in hotel comfort, of London or Paris. The hotel trip described is made on the Canadian Pacific liner Empress of France which leaves Southampton on January 26 for New York. From the American metropolis the Empress of France has things in the wardrobe, handles his trunk into the basement, sits back in his easy chair with a newspaper in his hand, a lighted pipe in his mouth and says easily, "Well, I guess we'll go to Japan."

# For First Time In History Weight Of World's Thinking Now For Peace Instead Of War

## Why the Jog On Correction Lines?

A Fundamental Geographical Truth That the Earth is Spherical

Every western farmer, school teacher and student should be interested in the answer to the above question. It emphasizes the fundamental geographical truth that the earth is spherical.

According to the topographical survey, department of the interior, surveys, all north and south townships and section lines are theoretically meridians and therefore would meet at the north pole. From the base lines the meridional outlines of townships are surveyed 12 miles south and 12 miles north to the correction line. Due to the convergence, the breadth of a township on the south side of a correction line is about 120 feet less and on the north side about 120 feet greater than at a base line. This gives a jog on the correction line of about 240 feet at the west side of range 1, or about 7,200 feet, that is over a mile, at a distance of 20 ranges from an initial meridian.

Townships are therefore not truly rectangular and it can be easily demonstrated that it is not practicable to fit rectangular townships on a spherical surface over an extended area such as the prairie provinces. Here is an opportunity for the school teacher to give an example of the practical use of the knowledge that the earth is spherical. And what better place is there to start teaching geography than at the prairie provinces. Here is an opportunity for the school teacher to give an example of the practical use of the knowledge that the earth is spherical. And what better place is there to start teaching geography than at the prairie provinces. Here is an opportunity for the school teacher to give an example of the practical use of the knowledge that the earth is spherical.

When Europe gets to the point where it can point to international boundaries like that between Canada and the United States, which winds its way through mountains and valleys and prairies and mountains with utterly no forts and battlements, or guns or guarding soldiers, there will be hope for the intelligence of mankind—J. H. H. H.

## Travelling Crop Exhibits

Extensive Preparations For C.P.R. Forage Crop Seed Cares For

All prairie provinces are to have forage crop seed cars on Canadian Pacific lines during February, March and April.

The cars will begin their routes in Alberta at Manlyberies on February 21, working west over the Stirling subdivision, then working over the Taber and Maple Creek subdivisions and along the Bassano-Battleford line east to Empress. This route is planned with special reference to crops suitable to the drier areas.

The trains in Saskatchewan will start on the February 21st from Moose Jaw, cover the main line to the Alberta boundary, the Empress line, then the Outlook, Rosetown, Macklin route, returning by way of Wilkie, Saskatoon, Coleman, to Regina, and if spring has not advanced too rapidly the Langdon, Moffat and Telford-Tisdale line will also be covered.

In Manitoba the dates and routes have not yet been fully determined. These cars will carry exhibits of all crops to be sown on and small supplies of seed for sale.

As usual these cars are being run free of charge by the railway and the lecturers and demonstrators are supplied by the various provincial departments of agriculture.

In Alberta it is planned to spend an entire day at each point. In Saskatchewan it is probable that two points per day will be covered.

## Perry Read Receives Appointment

The resignation of E. T. Lore, assistant secretary of the national dairy council, left a vacancy in the west, which has now been filled by the appointment of Perry Read, of Regina, according to word received by L. A. Gibson, Manitoba dairy commissioner from Dairy Board secretary of the council. Mr. Read was dairy commissioner for Saskatchewan up till last year, when he left to take a position with the Saskatchewan Co-operative Creameries.

**How Mayfair Was Named**  
Even among Londoners, many are ignorant of the derivation of the name Mayfair, the fashionable section where the Duke of York, second son of the King, has just taken up residence. The origin of the name lies in the fact that it was there that the annual "May fair" used to be held. The fair was done away with in 1769, but was subsequently revived, being held on the site until its final abolition in 1784.

**False**  
Judge: "Do you charge your bus band with having your hair, too, you are?"

**The Woman:** "I should have, your worship, but I wasn't there when he did it."

It's surprising how easy it is to get something, you don't want.

## It was related the other day in a special cablegram to The Herald from Oslo, Norway, that the Norwegian cabinet had voted to tear down all the fortresses that Norway had built along the Swedish border.

That is a same example that ought to spread.

These symbols of enmity go down because enmity has passed out of the hearts of Swedes and Norwegians. They find that their old hatred was needless and foolish, and that they can live side by side as friends and both be much happier and far better off.

So, naturally, they do away with the forts that were of these frowning fortresses, and in the same motion the Norwegian Government cuts its military budget by two million kroner. That is only part of Europe, of course, and the fortresses to be razed are only a small proportion of those that still stand threateningly across international borders.

But new forts are not being built for one reason—because they have ceased to have much value, but for another and greater reason: that at last it can be said, for the first time in recorded history, that the weight of the world's thinking is toward peace instead of toward war. New forts are not being built, and some forts, at least, are being torn down. Even a little of this is great news for a world that needs just this kind of news so badly.

When Europe gets to the point where it can point to international boundaries like that between Canada and the United States, which winds its way through mountains and valleys and prairies and mountains with utterly no forts and battlements, or guns or guarding soldiers, there will be hope for the intelligence of mankind—J. H. H. H.

## Win World's Championship

Record of Canadian Birds in 1925 Egg-Laying Contest

A Canadian ten-bird pen won the world's championship in all official contests held in 1925. Canadian birds also made the highest individual scores for the same period. These records were made in the British Columbia contest conducted at the Dominion experimental farm, Anasazi, B.C., under the Canadian national egg-laying contest rules.

The championship pen which is owned by J. H. Mufford and Son, Wilfrid, B.C., laid 2,553 eggs in 364 days.

The leading single bird is owned by the Dominion experimental farm at Anasazi, B.C., with a record of 332 eggs, while the second highest bird belongs to Farrington Bros., Central Park, B.C., with 321 in 364 days. Canada had 19 birds with records of 300 eggs or over in the 1925 contest, all of which have official records in the government laying contest.

The egg-laying contest was conducted throughout the world and the central experimental farm here announced the results after scores had been received from the other countries participating.

## Would Boost Fruit Industry

Less Than Half An Apple A Day Is Consumed By People Of Canada

While the consumption of apples in Canada has fallen until it is less than half an apple a day, consumption of fruits has increased, due to effective advertising of the latter, according to a statement by G. F. McIntosh, Dominion fruit commissioner, Ottawa, at the annual convention of the British Columbia Fruit Growers' Association. With 200,000 acres in fruit orchards valued at \$120,000,000, Canadians should eat themselves, said Mr. McIntosh.

The fruit industry in the Dominion as a whole is in better condition today than for many years and is improving through the elimination of the Canadian laying contest.

**Seek Art Secret**  
The British Royal Academy is seeking the solution for one of the most baffling riddles in the history of art, the secret by which the famous fifteenth century Van Eyck brothers obtained such permanency of colors in their works. The pictures are among the world's rarest. The colors are still fresh.

**Mistress:** "Now, Bridget, there's no due in further argument as to how the dish should be prepared. But you've done it and the subject are of no use to it is evident one or other of us is crazy cook."

WORLD HAPPENINGS  
BRIEFLY TOLD

The founding of a chair for music in the University of Manitoba is being promoted by the Manitoba Music Teachers' Association.

Sir William Henry D. Haggard, brother of the late Sir Rider Haggard, the novelist, died at Glenora, France, Jan. 12, at the age of 74. He was a British diplomatic service in 1880.

Sergius Sinarsky, a professional spy, charged by the state with causing the death or burial of 135 revolutionists, was sentenced to death in Russia.

Official figures reveal that more than 1,500,000 tourists visited Italy during the year. Many were attracted by the facilities in connection with Holy Year.

The Canadian National Railways has signed a contract with the British Empire Steel Corporation to take 600,000 tons of coal from the Nova Scotia mines.

C. G. Coote, Progressive, MacLeod, Alta., proposes to move in the House of Commons for a substantial reduction in the customs tariff on automobiles and motor trucks.

A demonstration of a Communist character was held recently in Peking by workers and coolies as well as by students. No national flags were to be seen.

The Norwegian Arrow Club announces that the ship Norge, in which Roland Amundsen and his crew sailed, will make their attempts to reach the North Pole this year, will be commanded by her Italian constructor, Colonel Nobile.

Among several students who will be called to the bar in London is Baroness Clifton, her father and successor to the late Earl of Darley, her father, Lady Clifton, who is twenty-six years old, passed her final bar examination last year. She plans to practice as a barrister.

The Soviet Government has offered for sale the former Czar's sumptuous nine hundred piece dinner service made of the finest rock crystal. This superb dinner set was used only when royalty were the guests of the emperor and empress. It cost \$50,000 but now is offered at a fraction of that sum.

Organization in the near future of provincial honey pools, all functioning through one selling agency, was predicted by C. B. Goodenough, Dominion apiculturist, addressed the Manitoba Beekeepers Association convention. Such cooperation was essential, he said, if honey producers were to get proper prices for their products.

A Smart Example of the Flare

Sista once more asserts its charm and lends its lustre to the graceful lines of this afternoon frock, whose slim bodice more than meets its match in a full ruffling tunic. Fastening at the front beneath a shawl collar, the figure, the distinguishing feature of this charming model is the circular skirt, whose ruffles are of the finest quality. The sleeves are long and tight, finishing with a wide band. The front and back of the bodice are plain and in one piece, the bodice being finished separately and attached to the dress after it is made up. The diagram shows just how the pieces go together. No. 163 is in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, ## The World's Wonder Picture!

Sir Arthur Conan Doyle's Stupendous Story

**"THE LOST WORLD"**

ON

**SATURDAY**

FEBRUARY 6th

An amazing experience--sleeping around our dying camp fires, we were shot out of our slumbers by the most frightful cries, as ear splitting as a gigantic whistle, but deeper and more vibrant. Then a deep chested laugh, a growling, throaty gurgle--a shriek--enough to bring the cold sweat and make the heart miss a beat--And we knew that we were in the lost world, my sweetheart and I, facing a fight for life against these prehistoric monsters which we had just seen tearing each other.

With  
Bessie Love, Lewis Stone,  
Wallace Beery and Lloyd Hughes

IN THE MATTER of the Estate of Joseph Burns, late of Coleman, in the Province of Alberta, Miner, deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above named Joseph Burns, who died on the 21st day of December, A.D., 1925, are required to file with Mary Ann Burns, of Coleman, in the Province of Alberta, on or before the first day of March, A.D., 1926, a full statement, duly verified, of their claims, or of any security held by them, and after that date the Executrix will distribute the assets of the deceased amongst the parties entitled thereto, having regard only to the claims of which notice has been so filed, or of which have been brought to her knowledge.

DATED at Coleman, in the Province of Alberta, this 14th day of January, A.D., 1926.

OSTLUND & BROWN,  
Lethbridge, Alberta,  
Solicitors for the Executrix.

Mrs. J. Houghton successfully underwent a serious operation in the local hospital on Saturday of last week.
